Voyage is a beam-type seating system. It provides a dramatic and durable seating solution for airport, stations, malls and museums. Voyage are available in two-, three-, four- or more seats according to requirement with steel or cushioned and upholstered seats. The seats are perforated steel finished in epoxy powder coating for low maintenance. These are mounted on a rectangular steel beam which allows long runs of seating. Individual seats can be linked together via a swivel joint at any angle with the turn table positioned on top of it.
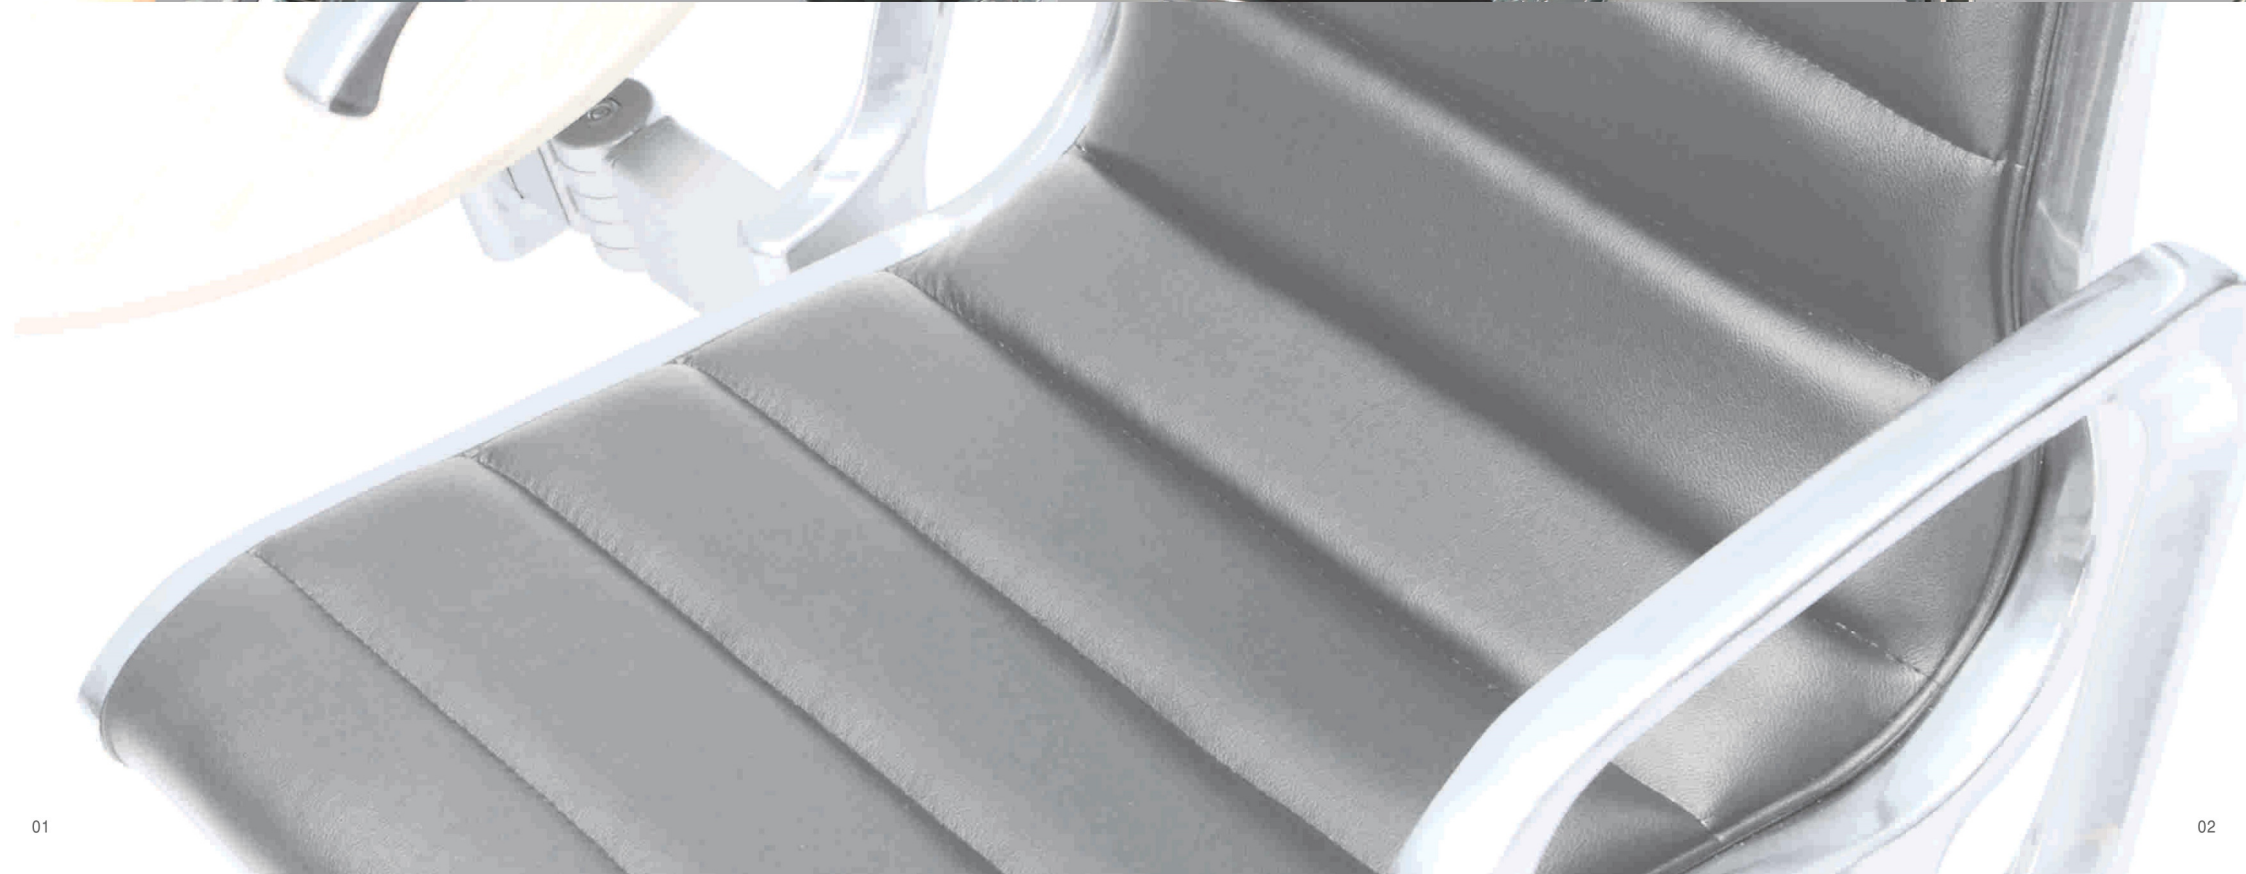

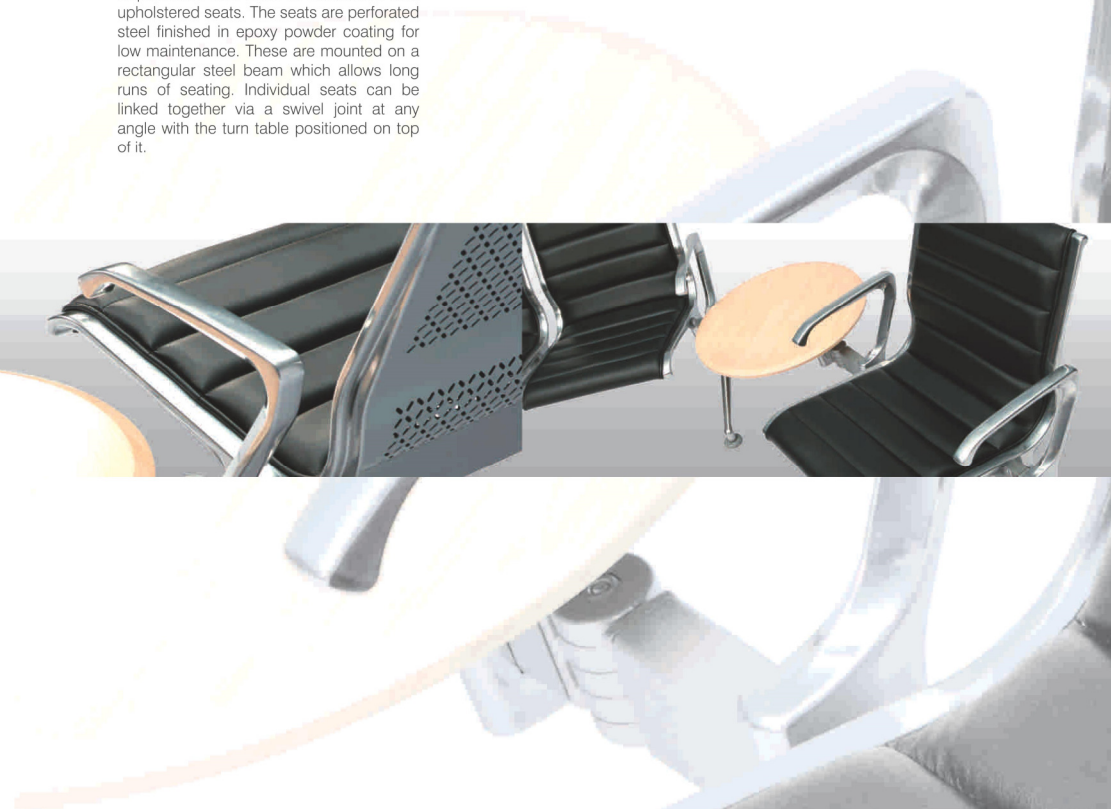

Elegant design

Flexible modular

VOYAGE Beam Seating Specifications

Legs/Armrests/Frame Components.
Cast aluminium polished to a mirror finish.

Body Shapes.
Formed by 2.0mm Cold-Rolled steel plate . The backrest is supported by cast aluminium. Finished in epoxy powder coating.

Beam.
Rectangular steel hollow section in 76 x 38 x 2.3mm. The finish and the colour will be the same with the body shape.

Upholstery Pads.
Finished in PVC, leather or fabric. Upholstery material bonded to polyurathane foam and steel plate as an inner support.

Table Tops.
Constructed from medium density fibre board (MDF) and finished by using decorative laminate, with ducknose edging.

Side table in 18mm MDF board. Available in maple colour.

Individual benches can be linked together via a swivel joint at any angle with the turn table positioned on top of it.

Armrest, legs and frame components are diecast aluminium to combine beauty and durability.

Silver powder coated perforated steel seat for low maintenance.

Low back with upholstered PU foam padding for more comfortable seating.

The swingable design allowed you to change any orientations at any time, any place as you like.

Padded headrest and footrest is a good solution for long wait.
